

## Email can get your message out quick.

Inbox Delivery Rate + Premium Tracking + Reputation Management

How does your Email Service Provider add up? With BillboardEmail from ANS, all of your questions can be answered with a click of the mouse. It's time to get noticed.

### *What Makes BillboardEmail's Marketing Solutions Different?*

You've got the message, you've set the price, you know who your mailing to (or maybe you don't and if not let's talk) but how do you get the message out ensuring the highest deliverability rate, minimal ISP throttling, and client satisfaction? BillboardEmail is the most advanced email deliverability system that allows you to create, track and manage your campaigns all from an easy to use dashboard. You'll see the hard bounce, soft bounce and spam complaints which allow you to make the necessary adjustments for future success. BillboardEmail also has dynamic content deliverability capabilities, real-time campaign adjusting, email address verification services and so much more.

If you're new to email marketing, check out our best practices and white papers and get educated, then give us a call. With BillboardEmail, we'll make you an expert in no time. With BillboardEmail, it's time to Get Noticed!
